The EYE is seventeen times
stronger than the EAR.

Research has proven that im-
pressions received through the
eye are seventeen times more
effective than those received
through the ear.

Your advertisement in the City Directory reaches
the vision of your prospects all over the city 365 days
in the year, because some one is using it every hour
in the day.

PREFACE

THE GATE CITY OF EASTERN NORTH CAROLINA

Furnished by the Chamber of Commerce.

Goldsboro is the county-seat of Wayne County, one of the leading manufacturing and agricultural counties of the State, being the home of thirty well-established manufacturing plants, their principal products being brick, veneer, lumber, building supplies, cotton yarn, hosiery, tobacco, locomotives, farm implements, furniture, mattresses, ladies' and gents' ready-to-wear, and several other commodities. The agricultural resources are unlimited and Wayne County produces annually an average of thirty thousand bales of cotton, fifteen million pounds of tobacco, tons of grain, hay and other food crops, to say nothing of livestock and poultry. Goldsboro is the center of the marketing of these commodities, which makes it a prosperous city and one well worth while locating in.

The population of Goldsboro in 1910 was 6,142. In 1920, according to Government figures, this had been more than doubled, and today Goldsboro claims a citizenship of fifteen thousand happy and prosperous people. The city is the shopping center of upward of 100,000 residing within a radius of twenty miles.

Goldsboro, due to its surrounding territory and its geographical location and its unsurpassed facilities, is rapidly developing into a commercial center. Recently several large manufacturers have located distributing branches here. Thirty-two passenger trains run to and from the city daily, which is quite advantageous to the commercial traveler doing business in Eastern North Carolina. Goldsboro is indeed, and, in fact, the gateway of Eastern North Carolina, and as such has a mission to perform. A mission which concerns every man and a mission which means much to mankind in general, because here in this favored spot is found health, happiness and well-being.

Goldsboro dates back to the time of Sir Walter Raleigh, who, if he did nothing greater than exploit the section wherein is located the Gate City, is entitled for this one act to a full meed of praise. In the many years that have elapsed since then, Goldsboro has pursued the even tenor of its ways and its citizens have been content to enjoy and prosper under its advantages until it has secured a foundation on which to create and which will enable it to build like the wise man of old—upon a solid rock which will withstand the storms of panics, short crops and the greed of politicians. In the building of this city to date ideal citizenship has been kept constantly in mind, and the greater duration of the visit of the "stranger within its gates" the more surely there comes the charm of intercourse with a hospitable, democratic class of citizens whose ideals are worth of character instead of a measure of the bank account.

Here is the dividing line between the frigid climate of the north and the enervating climate of the tropics.

Here is found nine months of summer with only three of a not unpleasant autumn or winter temperature.

Here one is within a daylight journey of New York, Philadelphia, Baltimore, Washington, Savannah, Atlanta and Jacksonville.

Here one is within a thirty-hour ride of the cities of Boston, Quebec, Montreal, Toronto, Buffalo, Cleveland, Cincinnati, Detroit, Chicago, St. Louis, Louisville, Memphis, New Orleans, Mobile and Palm Beach, and reaching the population of over seventy millions of people.

Here one is within a few hours' ride of the finest surf bathing on the Atlantic Coast, on the beaches of Wrightsville, Morhead City and Beaufort; and here one can live in the warmth of a genial sun and yet be in touch with the life of the nation.

Health conditions are ideal, the death rate averaging less than nine to a thousand. The city owns its splendid water system, furnishing at a minimum cost the purest of soft, uncontaminated drinking water. Goldsboro has sixteen miles of hard-surfaced streets, twenty-eight miles of paved sidewalks, five and one-half miles of electric car line, well-equipped parks and playgrounds, permanent health and sanitary officers with efficient staffs, a permanent community center, a nationally known organization of associated charities, and one of the

best and most active Chambers of Commerce in the South; a wide-awake Merchants' Association, an efficient Traffic Department, Rotary and Kiwanis Clubs, and all of the permanently recognized fraternal orders have local posts. Living conditions, from a health standpoint, are beyond criticism, and living conditions from a financial standpoint are within the means of all. Electric power, gas, telephone and water rates are below those of the average city. Being located in an agricultural district, country produce is plentiful and reasonable in price. All roads leading into Goldsboro are in good condition, and within a few months most of them will be hard surfaced. Hotel facilities are ample. Board and room in private homes is available.

In addition to being the Gateway of Eastern North Carolina, Goldsboro is the county-seat of Wayne County, which ranks first in agriculture. Here is grown hay, alfalfa, cowpeas, cabbage, beets, beans, peas, celery, truck garden products, strawberries, dewberries, huckleberries, melons, peaches, plums, cherries, apples, pears and numerous products of the soil. This is the land where can be grown three crops on the same soil during the year and a land which, by reason of its freedom from rocks and stones, is easily and economically tilled. Here can be produced from one acre of land 1,500 pounds of tobacco or 1,500 pounds of cotton.

Thirty years ago Goldsboro was a village of very few inhabitants. The soil, always unusually fertile, had scarcely begun to yield the wealth that is now pouring out in such abundance. The production of tobacco, now a great industry, was then only being introduced in this section. The contrast between Goldsboro of that day and 1924 is amazing. Population has greatly increased. Manufacturing industries employing hundreds of people at a good scale of wages now occupy many acres that were then but the open field.

Today Goldsboro is an ideal location for factories. The great number of diversified industries now here are in a flourishing condition and developing to a marked degree each succeeding year; and the combination of climate, contiguity to the live sections of population, transportation, health, economic hospitality and other favorable conditions, are forces sure to produce a healthful, substantial and steady growth in population and wealth, and assures the investor as well as the homeseeker a certainty of acting wisely in locating in its midst.

Goldsboro has three railroads—the Atlantic Coast Line, the Southern and Norfolk Southern. These great systems are among the best in the United States and provide transportation facilities second to none. They lead to the seashore or to the North or South, to say nothing of the great Central West. The many agricultural products of Wayne County find an outlet through the county-seat and the factories ship their products to every clime and every land.

Wayne County boasts of good roads, which are of great importance to the farmer as well as the motorist, and add pleasure to the existence of any one who might be fortunate enough to be attracted to this section.

Goldsboro has one of the finest and best directed school systems of the State, where a thorough and exacting course of instruction assures a splendid education and a good college preparation. Nine school buildings supply the demand, and they are constructed on the latest approved plan for educational institutions.

Goldsboro has a high moral and religious tone. There are sixteen churches of various denominations whose congregations work in close harmony towards the advancement of the common weal and who gladly welcome all newcomers. Any one is welcome here, however, regardless of their religious belief, and is free to act in accordance with their convictions.

Goldsboro has a generous and well-constructed water and sewerage system. It was built with consideration of the future and is ample for the supply and sanitation of a city of many thousands of inhabitants. With an abundance of water Goldsboro has a guarantee which attracts factories as well as individuals. The fire-fighting force, backed by modern appliances, is efficient and watchful.

It is recognized today that the great South, with her amazing number of unexploited resources and possibilities of development, her superior conditions for agricultural production, and her healthful and charming climate, affords at the present the best field of opportunity. The only debatable question is, which Southern State and what location in that State offers the best combination of the particular conditions you desire?

Wonderful is the South, and great beyond our dreams will be her future, but in all these Southern States there will be none to compare in the magnitude of its growth with the pre-eminently well-favored State of North Carolina.

General Offices: 524-528 Broadway, Corner Spring St., New York City

The Association of North American Directory Publishers is composed of rep table City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First: The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second: To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third: To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth: For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this Association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories and reference media contain; to study public needs and make Directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the Directory and reference media be made to serve their fullest use as business and social reference books and Directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicly upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories and reference media in public service and then to strive in every legitimate way to promote that function.

\$100 reward will be paid by the association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.

ADVERTISING GOLDSBORO

Do you know that a copy of this Directory of Goldsboro is being placed in the Directory libraries and among the commercial bodies, Business Men's Clubs, Chambers of Commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The publishers are doing everything possible to make this Directory a representative city catalog of Goldsboro. Are you as prominently represented as you should be?
